Green-Source Products Appoints Rob Neskey as Director of Business Development

Cleveland, September 9, 2008 — Rob Neskey was recently appointed Director of Business Development for Green-Source Products. Mr. Neskey is a fourteen year veteran of business development within the industrial and office capital goods industries and has strong collaborative business relationships within the architectural, commercial real estate, and regional corporate account business markets. Mr. Neskey's consultative approach to client relations brings about responsible problem-solving solutions that are mutually beneficial; his collaborative approach will be well utilized as a member of Green-Source Products sales staff. Mr. Neskey is a graduate of Bowling Green State University and has dual Bachelor of Arts degrees in Sociology and Political Science.

Green-Source Products is the manufacturer of the High Performance Green Building System™ (HPGBS™), an ultra-energy efficient, fully engineered structural wall and roof building system. HPGBS™ structural insulated panels (SIPS) are 100% recyclable and proven to drastically reduce energy consumption of commercial and residential buildings. To learn more about Green-Source Products or HPGBS™, please visit www.GreenSourceProducts.com.
